Profile

Data-driven Software Engineering student with strong foundations in Python, Machine Learning, and Data Visualization. Skilled at building ML models for anomaly detection, classification, and prediction with hands-on project experience in educational and healthcare domains. Seeking a Data Analyst/AI role to apply technical expertise in extracting insights and building impactful solutions.

Skills

- Python (Pandas, NumPy, Scikit-learn)
- Machine Learning & Deep Learning
- Data Visualization (Power BI, Matplotlib, Seaborn)
- SQL, MongoDB
- Flask API
- Microsoft Excel

Work Experience

Data Analyst Intern

Internee.pk (Remote) | Sep - Nov 2025

- Worked on secure API integration and efficient state management with Redux.
- Handled backend data communication and optimized frontend performance.
- Contributed to building dashboards and visual interfaces with ReactJS.

Projects

Internship Completion Analysis

Power BI, Data Analysis

- Analyzed internship enrollment, completion, and dropout data across departments.
- Built interactive dashboards in Power BI to uncover success factors.
- Identified mentor interaction as the most crucial driver of completion (70%+ rate in high interaction).

Intern Performance Prediction

Python (scikit-learn), Random Forest, Logistic Regression, Power BI

- Developed ML models to predict intern performance with 95% accuracy using Random Forest.
- Identified key predictors of performance including task submission, attendance, and mentor interaction.
- Created Power BI dashboards for KPI tracking and performance benchmarking.

Education

Bachelors in Software Engineering (CGPA 3.3)

Bahria University, Islamabad | 2021 - 2025

Intermediate (F.Sc Pre-Engineering)

APS&C Humayun Road, Rawalpindi | 2019 - 2021

Matriculation (Science)

APS&C Humayun Road, Rawalpindi | 2017 - 2019

Certifications

- Google Data Analytics Certificate
- Python for Data Science
- Power BI Fundamentals
